

Ethos Health TBI Treatment Materials

Each licensed clinic must obtain the necessary equipment and supplies for the TBI Therapy protocols.

Hardware

- WAVi device (<https://wavimed.com/>)
- Labcorp centrifuge (or comparable) for isolating PRP/PPP
- Ozone machine (optional), from Longevity Resources, with oxygen tank
<https://www.ozonegenerator.com/ext120-ozone-generator/>
- Oxygen (from local Airgas supplier or medical equipment supplier)- The ozone machine requires a O2 tank with **pediatric regulator**. The tank can often be rented locally or purchased from Longevity Resources and filled locally
- Oxygen concentrators- <https://lptmedical.com/> is a good source for these as well as nasal cannulas or masks
- Wire Test Tube Rack

Materials (PRP Kits, PRP Solutions, Bulk Supplies and Solutions for IN PRP and IN Insulin)

Intranasal PRP Materials Kit (Provided by TBI Therapy): \$300

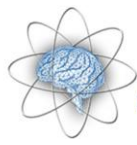

- 3 intranasal catheters (OEM, from existing medical device)
- 3 18 g x 3.5-inch spinal needles
- 3 luer lock adapters (female to female)
- 3 intranasal atomizers
- 3 30 cc syringes
- 3 20 cc syringes
- 3 10 cc syringes
- 6 3 cc syringes
- 3 yellow-top tubes (8.5 cc)

Ethos Health may use these Intranasal Material Kits to treat one patient 3x or 3 patients treated 1x. Shipping fee per kit is \$25. **Shipping is free when five kits are ordered at one time.**

Ethos Health should expect delivery from Colorado in approximately five business days but should provide 7 to 10 days of lead time for TBI Therapy when ordering, especially during winter months.

Intranasal PRP Cocktail Kit (Provided by College Pharmacy, Paid to TBI Therapy): \$280

- 1 5 cc vial D50
- 1 2 cc vial Ascorbate

- 1 2 cc vial NAD+
- 1 2 cc vial Magnesium chloride
- 1 2 cc vial Glutathione
- 1 1 cc vial B12

Note: This Intranasal PRP cocktail kit must be ordered in bulk directly from College Pharmacy by facsimile. Minimum orders are 10 kits at one time. Solutions in kit are preservative-free but will last if refrigerated appropriately for about 5 months before expiration. Each kit provides enough solutions for 3 intranasal PRP cocktail treatments.

Bulk Intranasal PRP Supplies: (from McKesson, Henry Schein, or comparable): to be ordered by individual clinics (to have as extra when as needed)

- 1 box 3 cc syringes
- 1 box 10 cc syringes
- 1 box 20 cc syringes
- 1 box 30 cc syringes
- 1 box 18 g draw needles
- 1 box blood collection needles
- 1 box tourniquets
- 1 box gauze pads
- 1 box alcohol wipes
- 1 box blue chucks

Bulk Intranasal Insulin Supplies (from McKesson, Henry Schein, or comparable): to be ordered by individual clinics as needed:

- 1 box 1 cc syringes
- 1 box 3 cc syringes
- 1 box 10 cc syringes
- 1 box draw 18 g draw needles
- 1 case 100 cc NS bag
- 1 tray 20 cc sterile vials (10 vials)

Bulk Solutions for Intranasal PRP and Insulin: to be ordered by individual clinics as needed:

- Ropivacaine (0.5%, 5mg/cc) (Box of 30 cc vials x 10 count): provides for 10 treatments
- Phenylephrine (10mg/cc) (Box of 1cc vials x 25 count): provides for 50 treatments
- Humulin R U100 10cc vial (from local pharmacy): provides insulin for 25 bilateral intranasal insulin treatments.
